Overview

For customers who need to monitor activity in a variety of lighting conditions, from bright light to complete darkness, Vicon's Roughneck® Dome integrates Smart IR, True WDR, and 5 MP resolution to guarantee superior image quality, regardless of lighting. The camera is protected by a weather-proof (IP67), vandal-resistant (IK10) enclosure, and generates an alert in the event someone attempts to obstruct or move the camera.

Product at a Glance

▸ 5 MP resolution

▸ True WDR ensures bright areas do not appear saturated and dark areas are not too dark

▸ Integrated Smart IR provides uniform illumination in total darkness for high-quality video from 98 ft (30m) away

▸ Remote zoom and focus lets you zoom in and out remotely with the click of a mouse

▸ Corridor mode - where the camera provides a 90° rotation so images are created vertically - maximizes the field-of-view in narrow situations (like hallways)
